

GREATER LOUISVILLE KOI & GOLDFISH SOCIETY

**15th ANNUAL FISH SHOW INFORMATION
MAY 29/30, 2010**

PREPARATION OF FISH BEFORE SHOW

1. Do not feed fish 4-7 days before the show. This is very important as it helps to reduce ammonia build up in the show tanks.
2. The fish should be double bagged when they are transported to the show. The bags should be filled with oxygen if transport time is over 30 minutes.
3. Make sure to drive directly to the show after bagging the fish. This will reduce the possibilities of causing the fish to become stressed.
4. Please inspect fish thoroughly for signs of illness or injury. Fish that show signs of either will be disqualified.
5. Make sure to keep the bags used for transportation to the show. This will allow you to be prepared for the return trip home.
6. The oxygen for the return trip home will be provided by the GLKG&S.

AUCTION

An auction of show and pond quality koi and goldfish will be held on Sunday at approximately 2:30 p.m.

RAFFLE

Raffles of pond related items will be held on Saturday and Sunday at various times.

VENDORS

A 40' by 80' tent will be set up to a number of vendors that will have koi, goldfish and pond related items available for purchase.

SHOW SECURITY

A security guard will be present on Friday and Saturday nights to ensure the safety of the fish from outsiders.
